

2009 Tour Registration Form

How to Determine Your Division:

1. Events are open to all juniors who are able to compete within the scoring parameters and are under the age of 19 as of 6/16/09. Any junior who has entered college is ineligible for participation in junior events.
2. The division the junior competes in should be determined by playing ability, not by age. You should select a division that corresponds to your 'average' score from the appropriate course length.
3. If a player finishes first in an event, he/she will automatically be promoted to the next division for future tournaments and will also be qualified for the Tournament of Champions.
 - Juniors will not be moved from the 9-hole division to the 18-hole division unless the parent or guardian agrees it is best for the junior.
4. Juniors in divisions B5 and G3 will play a shortened event (4-6 holes). We have taken this precaution in the best interest of the junior so the summer heat and length of play may not hinder the experience for these golfers. Any B4 or G3 player that shoots below the minimum score of 50 in an event, will be able to continue to play in 9 hole division, but will be put into a separate division (B4A or G3A) for future events. The junior will also have the option to move up into the 18-hole division.
